Move-In and Move-Out Utility Checklist

Plan every stop, start and final bill, so a move does not make you pay twice, pay for someone else's use or lose a deposit.

How to use it

1. Fill in your move below. Start the timeline three to four weeks before you move.
2. Call every provider. Log each call: date, time, name and confirmation number.
3. Photograph every meter you can safely see at both homes, and check each final bill against your photos.

Your move

OLD ADDRESS

NEW ADDRESS

MOVE-OUT DAY

MOVE-IN DAY

STOP ELECTRICITY AND GAS (the day after you move out)

START ELECTRICITY AND GAS (the day before you move in)

Three ways a move costs money

Overlaps
Two internet plans running for a month, or a phone line you forgot to cancel, are easy to miss.

Gaps
A late start can mean a reconnection fee, a rush installation charge or a night without heat.

Someone else's use
A missing final reading at your new home can put the last occupant's use on your first bill. Your move-in photo is the evidence.

Inside this printable

2 Timeline checklist
3 Service tracker
4 Meter readings and call log
5 Final bills, deposits and stop-and-start days

From The Billix Household Utility Savings Handbook

This checklist is adapted from Tool 11.2 and section 11.5. The full handbook (246 pages, 26 worksheets) explains every bill line by line.

billixapp.com · 2026 edition

2 Timeline checklist

Write a target date under each stage, then tick each task as you finish it.

1	2	3	4	5
Three to four weeks before	One to two weeks before	Move-out day	Move-in day	After the move
DATE	DATE	DATE	DATE	DATE

1 Three to four weeks before the move

- [ ] List every service at the old home: electricity, gas or propane, water, sewer, trash, internet, TV, phone, security and any energy supplier.
- [ ] Find out which services you must open at the new home, and which come with it. Renters: ask the landlord in writing.
- [ ] Check internet providers and plans available at the new address 7.1.
- [ ] Read contracts for early termination fees, notice periods and equipment returns.
- [ ] Ask your old utility for a letter showing your payment history.

2 One to two weeks before

- [ ] Schedule stop dates at the old home: the day after you move out.
- [ ] Schedule start dates at the new home: the day before you move in.
- [ ] Request final meter readings at the old home, and confirm the new home's readings were closed for the last occupant.
- [ ] Book internet installation for the day you arrive.
- [ ] Give every provider a forwarding address.
- [ ] Log each call: date, time, name and confirmation number.

3 Move-out day

- [ ] Photograph every meter you can safely see, with the date showing.
- [ ] Write down the readings.
- [ ] Pack rented equipment for return, and keep the receipts or tracking numbers.

4 Move-in day

- [ ] Photograph and record every meter at the new home.
- [ ] Check that each service you need is working.
- [ ] Find the water shutoff valve and the electrical panel, in case of an emergency.

5 After the move

- [ ] Compare each final bill with your move-out photo.
- [ ] Check the first bill at the new home against your move-in photo.
- [ ] Stop autopay on closed accounts only after the final bill is paid.
- [ ] Watch the next two bank or card statements for charges from old providers.

SAFETY
If gas service was off, the utility turns it back on and relights pilot lights; do not do it yourself.

RENTERS
Ask the landlord which accounts you must open.

WORTH REPEATING
Do not count on anyone else to take service out of your name. You remain responsible for any account you have not closed.

3 Service tracker

Call every provider and tell them where and when to stop service. Calling several weeks ahead is suggested.

	PROVIDER	PHONE	ACCOUNT NUMBER		
Electricity					
	STOP DATE, OLD HOME	START DATE, NEW HOME	FINAL READING	DEPOSIT RETURNED	CONFIRMATION NUMBER

	PROVIDER	PHONE	ACCOUNT NUMBER		
Gas or propane					
	STOP DATE, OLD HOME	START DATE, NEW HOME	FINAL READING	DEPOSIT RETURNED	CONFIRMATION NUMBER

	STOP DATE, OLD HOME	START DATE, NEW HOME	FINAL READING	DEPOSIT RETURNED	CONFIRMATION NUMBER

	PROVIDER	PHONE	ACCOUNT NUMBER		
Other Security, energy supplier _____					
	STOP DATE, OLD HOME	START DATE, NEW HOME	FINAL READING	DEPOSIT RETURNED	CONFIRMATION NUMBER

	PROVIDER	PHONE	ACCOUNT NUMBER		
Other _____					
	STOP DATE, OLD HOME	START DATE, NEW HOME	FINAL READING	DEPOSIT RETURNED	CONFIRMATION NUMBER

4 Meter readings and call log

Photograph every meter you can safely see, at move-out and at move-in, with the date showing. Note the readings here.

Old home, move-out day

Ask for a final meter reading on your move-out day, so your last bill uses an actual reading, not an estimate.

Meter	Meter number	Your reading	Date	Photo taken	Reading on final bill	Matches photo
Electricity				☐		☐
Gas				☐		☐
Water				☐		☐
Other				☐		☐

New home, move-in day

☐ The last occupant's service was closed with a final reading

Meter	Meter number	Your reading	Date	Photo taken	Reading on first bill	Matches photo
Electricity				☐		☐
Gas				☐		☐
Water				☐		☐
Other				☐		☐

Call log

Write down the date, the time and the name of the person you spoke with.

Date	Time	Provider	Person you spoke with	Confirmation number	Notes

5 Final bills, deposits and stop-and-start days

Final-bill and deposit check

Compare each final bill with your move-out photo.

Item	Expected	Received	Date	Notes
Final bill, electricity				
Final bill, gas or propane				
Final bill, water and sewer				
Final ratio-billed share, or a deduction from the deposit				
Final bill, internet and TV				
Deposit refunds or credits				
Equipment return confirmed				

GETTING YOUR OLD DEPOSIT BACK

Deposits, with any interest owed, are generally applied to the final bill, and any credit left over is refunded. Note the amount you expect, and follow up if it does not arrive.

DEPOSIT AT THE NEW ADDRESS

A new provider may check your credit or ask for a deposit 10.9. Rules vary by state. Some new providers accept a letter from your old utility showing your payment history in place of a deposit.

Stop and start on the right days

Tags such as 7.1 are handbook sections.

Service	At the old home	At the new home	Notes
Electricity and gas	Stop the day after you move out	Start the day before you move in	A short overlap costs little. A gap can leave you without heat or light. **If gas service was off, the utility turns it back on and relights pilot lights; do not do it yourself.**
Water, sewer and trash	Stop or transfer on move-out day	Start on move-in day, if the account is yours	Renters: ask the landlord which accounts you must open.
A ratio-billed share	Ask in writing how the last month is prorated and billed, and whether it comes out of the deposit	Ask for the formula 11.2	Settle any corrections before you hand back the keys.
Internet and TV	End or transfer, and return equipment	Book installation early, for the day you arrive	Check what is available at the new address 7.1.
Mobile phone	Update your address	Check coverage at the new address	If you switch carriers, port your number before cancelling 8.6.
Energy supplier, in choice states	Check your contract for what happens when you move	Compare offers at the new address 2.11	A move may end a supplier contract, or it may not.
